The committee chairperson, City Councilor Alberto D. Pacquiao, called the hearing to order. After which, a short prayer was led by Ms. Gabisan.

When asked, Engr. Renee Magapan of the City Engineer's Office said that this project is covered by the city's Annual Budget for CY 2017. Based on the scope of work, the tank is already existing but not functional, and the project is only to rehabilitate the well, to install 5HP serviceable pump and add pipeline distribution for the whole school.

After finding the proposal in order, the chair ruled this item approved on committee level and to be calendared for second reading on the next regular session.

**APPROVED ON COMMITTEE LEVEL - FOR SECOND READING**

There being no more matter to take up, the chair declared the hearing adjourned at 2:14 in the afternoon.
